

Workshop: EE-NAMA Development
“Defining suitable EE-NAMA and International support needed”

Organized by Thai-German Programme on Energy Efficiency Development Plan

on Wednesday 14th May 2014, 09.30 – 19:30

At Sala Doungdokmai meeting room

Suan Thip Baan Chao Phraya, Nonthaburi

Project Overview:

Under the Thai - German Programme on Energy Efficiency Development Plan or TGP-EEDP, GIZ has been commissioned by the German Federal Ministry for Environment, Nature Conservation, Building and Nuclear Safety to contribute to the further development of the EEDP plan and to support the actions and to assist the implementation. The 3-year project officially started in May 2012 and will run until April 2015. Project partners of TGP-EEDP include the Energy Policy and Planning Office (EPPO), Department of Alternative Energy Development and Efficiency (DEDE) and the Thailand Greenhouse Gas Management Organization (TGO). The TGP-EEDP Project aims to promote increased energy efficiency in the industrial and building sectors by supporting the implementation of the EEDP plan, which will provide a highly cost-effective mechanism to improve Thailand's energy security, while also reducing CO₂ emissions.

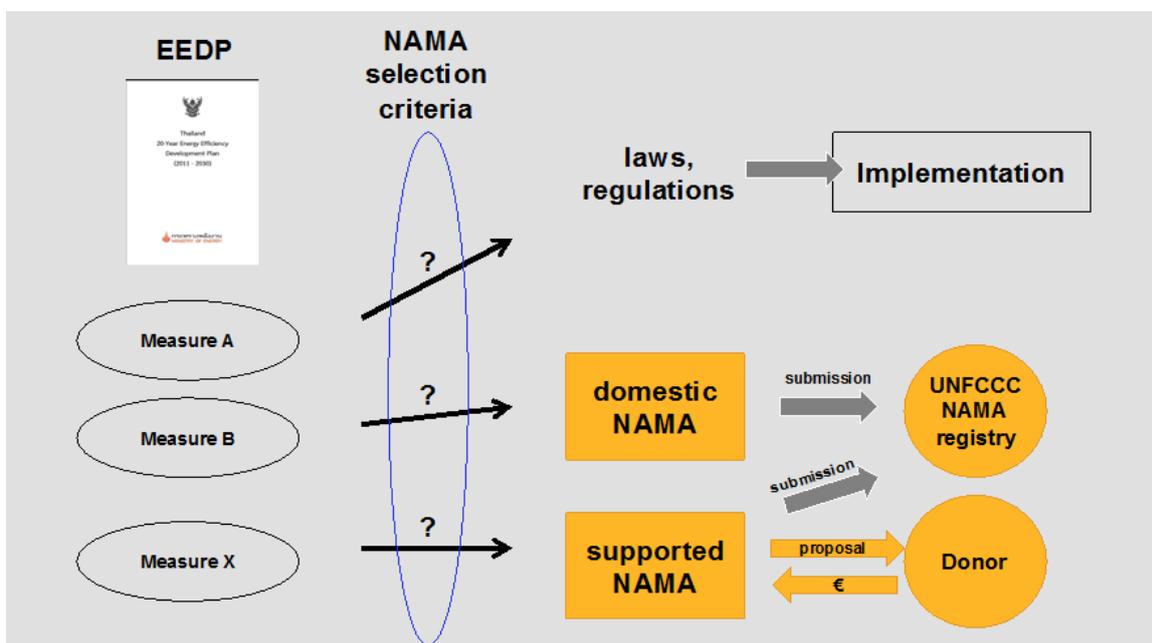

Background: EEDP and NAMA

Nationally Appropriate Mitigation Action (NAMA) is a voluntary measure for mitigating GHG emissions, which was firstly introduced in the Bali Action Plan in 2007 as a key mechanism to increase mitigation action in developing countries. After that in 2010, the Cancun Agreements recognized two types of NAMA—those developed with domestic resources (unilateral NAMA) and those requesting international support in the form of financing, technology transfer or capacity building (supported NAMA). However, as no internationally agreed definition for NAMA exists yet, NAMA activities are generally not limited as long as they are in line with national development plans and result in the mitigation of GHG emissions, including Thailand's 20-year Energy Efficiency Development Plan (EEDP). The implementation of the EEDP will strongly reduce Thailand's greenhouse gas emissions. Those efforts could be claimed by Thailand as its contribution to mitigate climate change, if the plan or selected parts of it were formulated as Nationally Appropriate Mitigation Actions (NAMAs) and were officially registered with the UNFCCC. Additionally, international support could be sought to support an effective and ambitious implementation of selected measures. However, so far Thailand has not yet formally registered any NAMA with the UNFCCC. Consequently, neither criteria nor institutional processes to select suitable policies to be registered as NAMAs exist.

Objective of EE-NAMA workshop:

Therefore, on Monday 14 May 2014, TGP-EEDP on behalf of EPPO and GIZ is organising a workshop on “Defining Suitable EE-NAMA and international support needed“, co-hosted by our main implementing counterparts, TGO and DEDE, with the following objectives:

- To provide a platform to share status quo of NAMA development in Thailand
- To present identified suitable selection criteria for domestic and supported NAMAs in the field of energy efficiency
- To discuss the approach of domestic NAMA in Thailand and select at least two energy efficiency measures to be developed as one exemplary domestic NAMA and one supported NAMA

**Schedule of the EE-NAMA Workshop:
“Defining suitable EE-NAMA and international support needed”**

09.30-10.00	Registration	
10.00-10.15	Welcome & Opening Address	<ul style="list-style-type: none"> • Mr. Sittichod Wantawin Director of Energy Efficiency and Renewable Energy Policy Bureau, EPPO
10.15-10.25	Introduction of GIZ and objectives of EE-NAMA workshop	<ul style="list-style-type: none"> • Dr. Milou Beerepoot TGP-EEDP Project Director, GIZ
10.25-10.30	Photo session	

10.30-10.50	"Status Quo of NAMA Development in Thailand"	<ul style="list-style-type: none"> • Mr. Prasert Sirinapaporn Director of Climate Change Management and Coordination Division, ONEP
10.50-11.10	Technical input: Different approaches for developing EE-NAMA	<ul style="list-style-type: none"> • Mr. Timon Wehnert Wuppertal Institute, Germany
11.10-11.35	"Selection criteria and Pre-selecting EE-Measure for domestic NAMA"	<ul style="list-style-type: none"> • Dr. Milou Beerepoot TGP-EEDP Project Director, GIZ
11.35-12.00	Open discussion and Q & A	
12.00-13.30	Luncheon	
13.30-13.50	"International Support for NAMA development and its challenges"	<ul style="list-style-type: none"> • Mr. Xander van Tilburg Senior Advisor, ECN
13.50-14.10	"Selection Criteria for internationally supported NAMA "	<ul style="list-style-type: none"> • Mr. Timon Wehnert Wuppertal Institute, Germany
14.10-14.20	Q & A	
14.20-15.30	Group Discussion: "Developing potential energy efficiency measures as an exemplary internationally supported NAMA (based on the selection criteria)"	
15.30-15.50	Coffee break	
15.50-16.30	Presentation of Group Works	
16.30-17.00	"Advisory Board Assessment: EE-Internationally supported NAMA for Thailand"	
17.00-17.20	Feedback session: EE-Internationally supported NAMA assessment	
17.20-17.30	"Final Remarks on next steps of EE-NAMA development in Thailand"	<ul style="list-style-type: none"> • Dr. Milou Beerepoot TGP-EEDP Project Director, GIZ
17.45-19.30	EE-NAMA Dinner Talk	

Remarks:

The final presentation and workshop materials will be available for online download **on Wednesday 21st May 2014** at <http://www.thai-german-cooperation.info/energy-efficiency-plan.html> or <http://goo.gl/9n3Ylo>
