

As an international cooperation enterprise with worldwide operations, the German government owned Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH operates on behalf of German ministries, the governments of other countries and international clients to provide tailor-made, cost-efficient and effective services for sustainable development. We are looking for a **Bangkok-based intern** to support the TRANSfer project.

## **Intern TRANSfer III**

Transport accounts for 27% of energy-related CO<sub>2</sub> emissions and continues to be a rapidly growing sector. According to the latest Transport Outlook, CO<sub>2</sub> emissions could increase 60% by 2050 (ITF, 2019). The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) was commissioned by The German Federal Ministry for the Environment, Nature Protection, Building and Nuclear Safety (BMU) with the implementation of the project TRANSfer III - Facilitating the development of ambitious transport mitigation actions.

The objective of the project is to increase the efforts of developing countries and emerging economies to foster climate-friendly transport with international support. The project follows a multi-stakeholder approach and acts as a “mitigation action preparation facility”. To achieve its objective TRANSfer focuses on the following four work packages (WP):

At an international level the project supports multi-donor initiatives for climate-friendly transport in emerging and developing countries. The initiatives allow OECD-countries to bundle and channel financing towards mitigation measures in the transport sector and leverage their impact (WP1). The project generates standardised support packages (toolkits) for selected mitigation measures (WP2). This allows partner countries and multi-donor initiatives to prepare mitigation measures faster and in a higher quality towards implementation and finance readiness (WP3). The support and participation in international learning processes through the development of knowledge products, organisation of conferences and trainings lead to a dissemination of best practice and increases levels of ambition (WP4).

In Thailand, the TRANSfer project is supporting the Office of Transport and Traffic Policy and Planning (OTP) and its partners in the development of the “Thailand Clean Mobility Programme”. The programme focusses on three topics, namely the implementation of travel demand management in the context of congestion charge scheme development, bus fleet modernisation, and upscaling by means of the creation of a sustainable transport fund.

### **Responsibility**

- Prepare and post social media and website content; respond to web correspondence, social media posts, writing news and newsletters
- Assist in the preparation of administrative management of project events such as trainings, workshops and meetings etc.
- Assist in the execution of interactive events
- Assist in the development of presentations, visualization materials and other knowledge products and knowledge sharing activities, in both Thai and English language (incl. translation of documents);
- Assist in the research of relevant information for the project as well as preparation of communication and PR products such as VDO, newsletters, articles, and social media posts in both Thai and English language (incl. translation of documents)
- Other relevant tasks assigned by the project team

### **Qualifications:**

Applicants are not required to have professional work experience, but are encouraged to list all relevant work experience in their application, as well as interests, skills and knowledge. To qualify for an internship with TRANSfer project, the following conditions should be met:

- Excellent writing and editing skills in both Thai and English for storytelling in which key message is clearly identified and presented nicely in a logical way
- A strong writer and editor with a flair for turning technical abstract issues into simple non-technical stories for a broad audience
- Strong interest in sustainable development, climate change, electric mobility and / or transport related topics
- Excellent command of MS Office package (Word, Excel and PowerPoint)
- Experiences in website and social media content and management
- Experience in organizing showcase events and exhibitions
- Good graphic and design skills, photo-taking, video shooting and editing, understanding of Search Engine Optimization (SEO) are an asset
- Good communication and social skills

### **Personal attributes and competencies:**

- Self-motivated, flexible and resourceful
- Able to strategize and find creative solutions
- Hands-on mentality and detail-oriented work ethics
- Team player and able to maintain positive attitudes
- Able to work under time pressure by ensuring quality outputs and meeting deadlines
- Interest and ability to work in a cross-cultural context and environment

### **Duty station and timeframe:**

The intern will be based in Bangkok. The internship duration is 3 to 6 months. The selected candidate is expected to start on May 3, 2021. This position is a remunerated internship.

Please submit your cover letter and CV to [chattayada.pattaragulwanit@giz.de](mailto:chattayada.pattaragulwanit@giz.de); and [issaree.jitrpatima@giz.de](mailto:issaree.jitrpatima@giz.de). The deadline for application is April 16, 2021. Only shortlisted candidates will be contacted.

GIZ Thailand is an equal opportunity employer and actively encourages gender diversity within the company and operations.
