

Owned by the German Government, the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH provides services in the field of international cooperation for sustainable development. GIZ works on behalf of public and private sector clients in both Germany and overseas. In Thailand, GIZ has a record more than 60 years and numerous projects have been implemented over time. The main focuses of GIZ Thailand at the present are climate change, private sector cooperation and training hub.

Currently, we are looking for a communication intern to support **the digital communication activities** of the following programmes funded by the German Federal Ministry for Environment, Nature Conservation and Nuclear Safety (BMU):

Clean, Affordable, and Secure Energy for Southeast Asia or CASE – A regional programme, that aims to drive change in the power sector in South East Asia (SEA) towards increased ambitions with regards to climate change. It focuses on the four main SEA countries in terms of energy demand – Indonesia, Philippines, Thailand and Vietnam – as well as foresees regional interventions. CASE will also support coordination in the SEA power sector, provides technical and policy support and facilitate dialogue and communication around a new energy vision. Through these activities, CASE will directly contribute to the transition of the power sector towards an innovative, economically successful and environmentally friendly model for SEA.

The Thai-German Climate Programme (TGCP) was established to support Thailand to achieve its target of 20% GHG reduction compared to the business-as-usual (BAU) level as stated in the Nationally Determined Contribution (NDC) by 2030. TGCP-Energy is an energy project which is part of TGCP with a dedicated focus on the energy sector. The project is jointly implemented by the Permanent Secretary Office, the Ministry of Energy (MoEN) of Thailand and GIZ. The TGCP-Energy supports the MoEN in finding a balanced way to promote environmentally friendly energy systems while ensuring security of energy supply by providing solid, practical, and innovative recommendations.
