

Announcement – Call for Interest

As an international cooperation enterprise with worldwide operations, the German government owned Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH operates on behalf of German ministries, the governments of other countries and international clients to provide tailor-made, cost-efficient and effective services for sustainable development. We are looking for **an expert/consultant team** to provide consultancy service for “**Enhancement of Thailand’s GPP Inventory, Reporting and Monitoring System**” for “**Scaling Sustainable Consumption and Production (Scaling SCP) project**”

Enhancement of Thailand’s GPP Inventory, Reporting and Monitoring System

The Scaling SCP project (SSCP) aims to increase awareness and capacities to develop and strengthen sustainability information policies and tools through Green or Sustainable Public Procurement (SPP) and eco-labelling. These instruments contribute directly to reducing greenhouse gases (GHG) emissions, while simultaneously developing ‘green’ markets and jobs for climate-friendly and less polluting products and services. Consequently, public authorities benefit through lower life-cycle-costs of purchased services and products and countries are enabled to increase their competitiveness and resource efficiency, as well as international trade, as well as by harmonising and mutually recognising eco-labels and GPP standards.

The assignment aims to **enhance Thailand’s Green Public Procurement (GPP) database** (<http://gp.pcd.go.th/>), which is under the responsibilities of Pollution Control Department to provide and maintain national GPP inventory, develop and publish GPP criteria, and report GPP data annually. Our project is seeking for **a company or an organization** with a team of experts to provide consultancy service.

Qualifications:

The consultant will form a team of experts with the following qualification:

- 1) University qualification in computer science, information technology, computer engineering or other related fields
- 2) Extensive experiences in product management for web-based products
- 3) Proven track record of successful software development projects, showcasing the ability to design, develop, test, and deploy software applications
- 4) Experiences with agile product development methodologies
- 5) Willingness to explore and propose innovative solutions to improve software quality and efficiency

This will be an assignment-based contract, with a period of **10 months** from **1st September 2023** to **30th June 2024** tentatively, with possibility to change period in case delay of tender process.

If you are interested, please confirm your interest via email to TH_Quotation@giz.de within **15 August 2023**. Kindly put email Subject: “Call for Interest (Scaling SCP)” and attach your expert CV/ company profile.

After deadline, interested company/organization will be invited to join the meeting for clarification of assignment and Q&A sessions. Invitation for Bidding will be sent out only to those who are interested to continue as candidate after the meeting.
