

As an international cooperation enterprise for sustainable development with worldwide operations, the government owned Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH operates on behalf of German Ministry of Environment. GIZ has a record of more than 60 years working in Thailand.

For the Programme **TGC-EMC: Thai-German Cooperation on Energy, Mobility, and Climate** we are currently looking for Project Coordinator for the Transport Sector.

### **Project Coordinator (TGC EMC TR)**

The **Thai-German Cooperation on Energy, Mobility and Climate (TGC EMC)** is a bilateral program under the International Climate Initiative (IKI) supported by the German Federal Ministry for Economic Affairs and Climate Action (BMWK). The programme aims to support the acceleration of Thailand's energy transition, ensuring compatibility between economic growth and high climate ambitions. A key component of this programme looks into the "Decarbonization of the Transport Sector" and will focus on transport sector electrification, EV batterie technology development and integration with renewable energy-based electricity production, charging infrastructure roll-out and EV grid integration.

Focusing on the two most important sectors in terms of emissions, the project will moreover support the operationalization of the power and transport transition through technology and knowledge transfer as well as policy, regulatory and business model development support. A clear focus will be put on sector coupling to encourage the tackling of issues shared across sectors which slow the energy transition. This cross-sectoral support to implementation will translate into City Labs where the technical, regulatory and business support will be operationalized along with local stakeholders in an urban set up, integrating a scaling-up plan. Finally, the project will provide significant support in the field of climate finance. The Thai Climate Finance Initiative (ThaiCI) will provide seed funding to a number of local projects along with capacity development to both the funding manager and potential recipients.

#### **Responsibilities:**

##### **The Project Coordinator for the Transport Component will provide support for:**

- Implementing project activities efficiently, transparently, independently as well as in close cooperation with other teams and colleagues; activities foreseen include policy advisory, technical studies, training, partner coordination etc.
- Coordinating the implementation of transport and sector cross-cutting TGC EMC activities within transport as well as across the project components, including political and consortium partners
- Coordinating the development of the operational plan for the TGC EMC project, which includes outlining activities, establishing a timeline, and setting milestones.
- Coordinating proactively with key partners/ stakeholders, foremost TGC EMC technical consortium as well as key political and public sector partners
- Establishing, maintaining, and further developing partner relationships
- Coordinating the implementation/ application of collaborative development of action plans, result-based monitoring system and other management tools and processes for the efficient and effective implementation of the project
- Managing the creation of project documents, including key technical and policy topics as well as essential project documents
- Independently support, and review technical/ policy research/ studies on project thematic scope relevant policy and regulatory framework in Thailand from research to conceptualization and development of recommendations

- Coordinating, monitoring and reporting of project activities
- Developing, organizing and facilitating meetings, workshops, events, trainings, exchanges, and excursions in coordination with component staff and relevant partners/ stakeholders
- Identifying, analyzing and disseminating information on relevant external knowledge products (i.e., publications, courses, trainings etc.) within and outside of GIZ
- Coordinating and ensuring regular communication with the management (i.e., team meeting, Jour Fixe etc.) to consult, reflect, and jointly develop the strategic orientation of the project
- Contributing to GIZ Thailand internal coordination/ knowledge management structures, cluster, or relevant working groups, management meetings, country planning etc.
- Other tasks as required

**We are looking for a candidate who preferably possesses (the equivalent of):**

- Bachelor's or master's degree related to at least one of the following fields: energy, transport, climate change, environment, finance, or economics
- At least 3-5 years of professional experience in project management and/ or coordination ideally related to transport, renewable energy, vehicle fuel efficiency, climate change, banking, climate finance, innovation
- Excellent communication skills and confidence to communicate with political partners and the private sector
- Ability to quickly establish dependable working relationships within the own organization and with external counterparts
- Independent working style with a strong team orientation
- Experience in organizing and facilitating workshops, seminars, or trainings
- Experience in working with Thai ministries, in public administration or in an international organization as well as knowledge of political and administrative processes is a strong advantage
- Willingness to quickly develop an understanding of policies and technical matters relevant to the project; previous knowledge is an advantage
- Ability to compile and summarize information effectively
- Very good presentation and communication skills; negotiation and moderation skills are an advantage
- Proactive and positive attitude and ability to self-motivate
- Interest and ability to work in a cross-cultural context and team
- Readiness to travel within Thailand and in the region, subject to project requirements
- Excellent command of Thai and English in writing and speaking; knowledge of German is an advantage
- Thai nationality only

This will be a fixed-term contract, starting as soon as possible and running until **31 December 2025** with the possibility of an extension.

**Duty station and timeframe:**

The position will be based in Bangkok and will report to the Project Director in GIZ Thailand.

Please carefully read this announcement and **submit 1) a CV AND 2) a cover letter in English to [aronratt.soontonbura@giz.de](mailto:aronratt.soontonbura@giz.de)**.

The **deadline for applications is 25 November 2024**. Only shortlisted candidates will be contacted.

GIZ Thailand is an equal opportunity employer and actively encourages gender diversity within the company and operations.
